EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows in view of canceling the non-elected claims and providing information regarding related patent application:

IN THE SPECIFICATION:

(1) On page 1, after the title, --This application claims the benefit of a national stage of PCT/JP04/00537 filed on 1/22/2004.-- is inserted.

IN THE CLAIMS:

(1) Claims 8-10 are canceled.

2. Applicant's election of species I (claims 1-7) in the reply filed on 3/5/2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). This application is in condition for allowance except for the presence of claims 8-10 directed to a species non-elected without traverse. Accordingly, claims 8-10 have been cancelled.

Allowable Subject Matter

3. Claims 1-7 are allowed.

Art Unit: 2878

4. The following is an examiner's statement of reasons for allowance:

The prior art fails to disclose or make obvious a photodetector having a photosensitive region in which pixels are arrayed two-dimensionally and being used with a light source that illuminate light onto an object comprising, in addition to the other recited features of the claim, the recited first and second processing circuits which detect a luminance profile in first and second direction in the manner recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mizuno (6,757,627) is cited for disclosing a photodetecting apparatus.
